CAREER OBJECTIVE

Motivated and adaptable fresher seeking a Software Developer opportunity to apply technical skills, build scalable applications, and contribute to organizational growth.

EDUCATION

B.E. Computer Science and Engineering 2023 - 2027

Kongu Engineering College

CGPA: 7.42 (till now)

HIGHER SECONDARY EDUCATION 2023

SVB Matriculation Higher Secondary School

HSC (12th): 79%

INTERNSHIP EXPERIENCE

PEP Software, Erode — Full Stack Developer Intern JUL 2026 –Present

- Developed admin panels and static web applications using frontend technologies.
- Worked with Firebase for database management and application functionality.
- Assisted in implementing, testing, and debugging application features.

PROJECTS

Expense Tracker NOV 2025

Technologies: MongoDB, Express.js, React.js, Node.js

- Developed a full-stack expense tracking web application using the MERN stack for managing personal income and expenses.
- Implemented user authentication and authorization to provide secure access to application features.
- Built CRUD functionality for creating, updating, viewing, and deleting income and expense transactions.
- Integrated data visualization to analyze income and expense patterns.

Healthcare Insurance Premium Predictor MAR 2025

Technologies: HTML, CSS, JavaScript

- Developed a responsive web application for estimating health insurance premiums based on user-provided inputs.
- Implemented BMI calculation logic using JavaScript based on age, height, and weight inputs.
- Designed a simple and user-friendly interface for entering inputs and displaying calculated results.

Posture Correction System MAR 2025

Technologies: ESP32, MPU6050 Gyro Sensor, Arduino IDE

- Designed and developed a wearable posture monitoring system using ESP32 and dual MPU6050 sensors.
- Implemented real-time posture detection by monitoring neck and hip orientation.
- Integrated sensor data processing to identify incorrect posture conditions.
- Implemented a buzzer-based alert mechanism to notify users when incorrect posture is detected.

TECHNICAL SKILLS

- Languages:** Java, JavaScript, SQL, HTML5, CSS3
- Frontend & Backend:** React.js, Node.js, Express.js, REST APIs
- Tools:** Git, GitHub, VS Code
- Database:** MongoDB

ACHIEVEMENTS & ACTIVITIES

- Participated in **BRICS** Youth Council Entrepreneurship Pre-Consultation at IISC ,Bangalore.
- Participated in **U&ME** hackathon **CIT**.

CERTIFICATION

- Azure AI Engineer Associate**
